FILE HEADING

Scheme for laying out ex lands to the Kolhapur Town

From The Ch Engr

No. B 3222 Dated 11 Sept '19 Received 15-9-19

| Diary No. 1974 | Enclos 5 Spare Copies | Serial No. 1 |
|---|---|---|

BRIEF ABSTRACT OF LETTER

Submits a copy of the proceedings of the Centre Secretary, dated 23rd August 19 together with an estimate for Rs 71300 for laying out ex lands to Kolhapur Town

NOTES AND ORDERS

1 The estimate of the Ch Engr is for Rs 110000 for laying out ex lands in three directions but the Secretary has resolved that only one ex land forming for 40 houses and 21 Cottages be laid out at the upper or Southern Western part of the town for the present

Serial No.

proposed for the Extension
and that the site (about 19 acres in extent
~~proposed~~) be approved

2 As the scheme is likely to benefit the
Malnad population as well the Ch Secty may
also be consulted Subd for orders.

MG 16/9/19 AM 16/9/19

3 The D[r] Comm and the ml el have not been
consulted in this matter The whole correspon-
may be sent to the Dc for obtaining the views
of the ml el in regard financing the Scheme
in whole or in part as suggested by the Said B[d].
It may also be sent to the D[r] Malnad Impt
Board for opinion

4 The shifting of the Taluk Cutcherry, the school
and the Post office are questions, each one
has to be taken up separately and dealt
with in detail, after consulting the departments
concerned.

5 For the present, taking into consideration
only the verdicts of the Koppa Town, then requirements
will be amply met if the Suggestion of the Said
Board is accepted

From the same office

5 No Dis Ors 1569 13/14-6-1920 returns the papers called for in Sl 4 13 Financial Condition of the ml cl of Koppa as per Budget estt of 19-20 is as stated below

| | | |
|---|---|---|
| Opening balance | | 12877 |
| Receipts | Special | 1150 |
| | Normal | 2615 |
| Total | | 16642 |
| Expdr | Spl. | 8100 |
| | Normal | 3106 |
| | Total — | 11206 |
| Closing balance | | 5436 |

From this it is clear that the Normal expdr exceeds the normal income

14 The cost of the extension as recommended by the C S Branch amounts to Rs 7138

The ml cl pray that a moiety of cost as a grant-in-aid may be sanctd and that a loan of Rs 2096 or Rs 3600 may be granted repayable in ten years by the municipality

24/6

NOTE—Contn sheet

Serial No

Flag H.

15 The question of extension of the town has come up as a result of the Dewan's promise to the people during his tour in January '19 - According to the proposal of the Central Sanitary Board, the extension which is intended to provide for 40 houses and 21 cottages is estimated to cost Rs 7,138/. The Municipality wants half of this to be borne by Govt & the other half to be given as bagasse to them by Govt as a loan to be refunded in about 2 years. Govt Dy Commr support the request of the Municipal Council - There is no information as to how much of this cost is likely to be recouped by the sale of the Sites -

16 The question of water supply of this town is under the active consideration of Govt, & in this connection the Municipality has asked for

NOTE—Contn sheet

Serial No

a loan of Rs 6294/ to be repaid in 6 years @ Rs 1000/ a year. It is therefore for consideration whether the Municipal Council will be able to bear an additional burden on their finances.

17. As regards the financing of the Extension-Scheme, the Financial Secretariat has to be consulted.

A. Rewsdory

2/7/20

* The Municipality undertake to repay the loan i.e. ½ the cost, in ten or twelve annual instalments. But these extensions should as a rule be self-supporting ones. If the 21 Cottage & 40 house-sites are sold by auction or at a reasonable upset price, a good portion of the expenditure should be recouped. So the Municipality should be asked to take up the extension as a Commercial concern and if there is any loss, the question of Govt making it up may be considered. The Dist may be informed accordingly.

Ml 91-19-3

Sir,

With reference to your letter No. R 4235/Ml.91-19-2 dated the 27th September 1919 asking me to obtain and submit the opinion of the Municipal Council of Koppa as regards the proposals made by the Chief Engineer for laying out extensions to the town, and as regards the ways and means for financing them, I have the honor to state that the Municipal Council are of opinion that the extensions marked A and B in the enclosed plan may be laid out as recommended by the Central Sanitary Board at their meeting on the 23rd August 1919. Regarding the cost of laying out the extensions, viz., Rs.7,138/- as noted in the statement of detailed estimate, the Municipal Council have resolved that Government be requested to be gracious enough to contribute a moiety of the cost as a grant-in-aid to them. This is a matter for the consideration of Government.

2 If the prayer of the Municipal Council is conceded to, they will have to provide for the other half of the cost. A provision of Rs.3,000/- is made in the estimate for sinking, in the extensions, good drinking Water Wells. The Municipal Council say that this provision is unnecessary as Government have sanctioned the scheme for the supply of pipe water to the town. Some provision for the supply of water to the extention seems to be necessary in any case, since the estimate for water supply now prepared does not appear to include the cost of laying out pipes to the extention. The quota payable by the Municipal Council if the provision made for water supply is excluded will be Rs.

Letter No.B.7470 dated the 10th June 1919 from the Chief Engineer of Mysore forwarding an estimate amounting to Rs 11,000/- for laying out extensions to Koppa Town in three directions to save the requirements of the different parts of the town.

Resolution No.12 Dated the 23rd August 1919

Resolved (1) that as the population of Koppa town is only 700, the prospective being taken as 1,000, only one extension providing for 40 houses and 21 cottages may for the present, be laid out at the upper or south-western part of the town and -- (2) that the site about 19 acres in extent proposed, be approved.

## A SCHEME FOR THE EXTENSION OF KOPPA TOWN

Koppa as now understood comprises -- comprises of four parts namely Melukoppa, Central Koppa Lower Koppa and Balagadi -- All these are shown on the accompanying --- extract from Revenue Survey maps

2 The present scheme deals with extensions to Melukoppa, Central Koppa and Lower Koppa vide tracing sheet of enlarged Survey plan of these three blocks

Genesis of the scheme

3 During the visit of the Dewan to this town in January last the inhabitants represented to him the need for the transfer of the Taluq office from Balagadi to Melukoppa It was represented that 140 officials had died at Balagadi, where the Taluq office is now located, within the last 14 years On this the Dewan promised to consider the -- question of building all new Government -- buildings at Melukoppa, and passed orders for a survey of the town, to consider the -- feasibility of opening an Extension for the town

Feasibility of the scheme.

4 The survey of the town has accordingly been carried out A perusal of the plan -- accompanying shows that there are three areas in the -- town suitable for extension, viz (1) sites marked A and B in Melukoppa, (2) sites --- marked C in Central Koppa and (3) sites -- marked D in Lower Koppa other than these areas there are no suitable sites for purposes of town extension The Melukoppa --

Melukonda Extension would be the healthiest locality The Extension D would be most -- useful to relieve congestion and improve the insanitary conditions of Lower Koppa

Extension of Melukoppa sites A and B.

5 Sites A and B are on the Kalyadi road in Melukoppa and are approximately 7 & 11½ acres in extent respectively Site A is -- nearer to the town and suitable for house -- sites, of which it will give room for 40 house sites 40'x 120' each, and one cottage -- sites 80'x 120' each approximately, excluding the new road and conservancy lanes that will be necessary A suitable disposition of the roads and conservancy lanes is indicated on the plan

6 The whole of plot B may be utilised for - alloting 20 cottage sites each 120' x 150' on either side of Kalyadi road If cottage - sites are not needed by people, this plot -- can be utilised for house sites alone after the site A has been disposed off

between the two blocks A and B a small open space / 3 acres in extent may be left for forming a park as indicated in the plan The -- blocks A and B may preferentially be given out for quarters for the officers and subordinates of the Revenue and other Departments

Central Koppa Extension site C

6 Site C in Central Koppa adjoins the -- Musaferkhana Close-by are several public buildings of the town such as the Dispensary Police station, School, and quarters for ---

for the respective officials This Extension is 7 acres in extent and will accommodate 16 house sites 40'x 120' each and a Bungalow site 80'x 120 besides a number of offices and school buildings

The present school building marked -- s on plan is situated on a steep slope -- making it impossible to have any play --- ground for it closeby. The building can be given out for use of two small Public offices, say, Excise and Forest, and the school can be advantageously transferred to the site marked S' Here the ground - is fairly even and makes it quite excellent for a good sized play ground adjoining the School The transfer of the --- school as proposed will not inconvenience any suburbs

The present Post office building --- marked P O on the plan is located at one end of the town and ought to be shifted to a more central place Site P O may be re-served for this building

Lower Koppa extension Site D

7 Site D is the only available site for extension in Lower Koppa and will afford room for 25 house sites 40'x 120' each Roads may be laid out here as indicated - with a para in the centre This extension will be very useful to relieve congestion in Lower Koppa

General

8 Proper drainage works, metalling the roads and ~~distribution of~~ water supply --

supply will be taken up after 30% of the houses are built It is noticed that there are wells in the vicinity of the above extensions where potable water is met with at depths ranging from 25 to 40 feet This indicates that wells can be successfully sunk in the proposed extensions for the use of the people taking up sites there Apart from this, the sanctioned water supply scheme for the town provides for a prospective population of 1,000 people against the present one of 700 in all the three suburbs so that, it will suffice for the extension also for some time to come However, four wells will be constructed for immediate use in plots A and D Bungalow site people in A can dig their own wells and the present well in C will suffice for that block

The roads will be simply formed with side earthen drains which will convey off the drainage

The whole of the proposed extensions is now covered with a thick jungle These will be completely removed

9 The above requirements to make the extensions fit for building houses on, are estimated to cost Rs 11,000/- vide detail statement accompanying The scheme deserves to be sanctioned in the interest of Malnad improvement generally and particularly of the officials and townsmen of Koppa
